

Meeting about apple

Lublin, 21st December 2012

Participants: 16

Language: Polish

Exercices

- We read a chapter of Delerm's book
- We combined a meeting with meeting before Christmas

In front of everybody's plate was put a small circle in different coulor that represented different colour: organge – smell, red – touch, green – hearnig, blue - eyesight. Every person wrote his/her memory

to the sense.

From circles we made Christmas tree

- Everybody draw lots with proverb connected with apple or symbolics of apple and read it:
- Apple does not fall far from the tree
- Lazy waits that apple fall into his mouth" Moldovan proverb
- An apple a day keeps the doctor away
- How good is a word said at the right time!
- What apple such apple peel, what kind of mother, like daughter
- beat someone to a pulp
- In Polish folklore hedgehogs collect apples were on their spines and they range from the orchard, but hedgehogs are in fact carnivorous.
- According to popular legend, Isaac Newton discovered the law of gravity thinking in the orchard, where the apple fell on his head.

- Big Apple or Big Apple is a colloquial phrase in the United States, meaning the city of New York.
- Two halves of an apple
- Apple in Europe, was a symbol of health, life, abundance, fertility, love, autumn harvest in Europe, but also the spring (with apple flower), prosperity, longevity and immortality.

Short discussion about symbolics of apple and associations with it

 Everybody on piece of paper in shape of apple wrote his/her good memory connected with Christmas and put it to a

memory box
